SUMMARY

Full-Stack Developer with a strong focus on backend systems and scalable applications. Experienced in building projects like Rentpy, a rental marketplace, and PestiGuide, a pesticide information platform. Proficient in JavaScript, TypeScript, React, Node.js, Express, PostgreSQL, and MongoDB with a passion for developing impactful software solutions

EDUCATION

Medi-Caps Institute of Technology and Management

Bachelor of Technology in Computer Science and Engineering

Aug 2022 – June 2026

Indore, India

Karmdeep Public Higher Secondary School

Higher Secondary (12th Grade) | Secondary (10th Grade)

Dewas, India

PROJECTS

Rentpy - Room Rental Marketplace | React, TypeScript, Node.js, PostgreSQL

🔗 [Live](#) — 🐙 [Code](#)

- Developed full-stack rental platform with React/TypeScript frontend and Node.js/Express backend, using PostgreSQL with Prisma ORM for data management
- Implemented JWT authentication, responsive Tailwind CSS UI, and advanced search filters with interactive property galleries
- Optimized API performance and implemented form validation with Zod for enhanced user experience
- Integrated Google Maps API for location autocomplete and interactive maps to display property locations
- Integrated Razorpay payment gateway to enable secure online transactions for rental bookings

PestiGuide | Node.js, Express.js, MongoDB

🐙 [Code](#)

- Developed the backend system using Express.js with MongoDB, creating API endpoints for pesticide and crop data management
- Designed and implemented the database schema with collections for pesticides, crops, and their relationships
- Collaborated in a 3-person team using Git, primarily responsible for backend architecture and database operations
- Organized pesticide data into Kharif, Rabi, and Zaid seasons to make it easier for farmers to access relevant information

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, SQL, HTML/CSS

Frontend: React, Tailwind CSS, Zod

Backend: Node.js, Express, REST APIs

Databases: PostgreSQL, MongoDB (Prisma, Mongoose)

Tools: Git, VSCode, Postman
